

Poem

*I wish you never ending dreams
And the longing to realise some of them
I wish you to love whatever needs to be loved
And forget what has to be forgotten
I wish you passions
I wish you silences
I wish you bird songs to wake you up
And children's laughter
I wish you to resist engulfment,
Heartlessness
And the negative virtues of our time.
And most of all, I wish you to be yourself.*

Your dream flight ...

Mont Blanc

4807 m (15770 ft)

Starting from Chambéry (Challes les Eaux airfield), we will climb via the "Dent d'Arclusaz", the "Grand Arc" and the "Encombres pass" at 2.340 m (7.700 ft).

Then, we will fly over the famous ski resorts of Méribel, Courchevel, La Plagne, Les Arcs and Bourg Saint Maurice, arriving at Mont Blanc from the south, via Trè-La-Tête and the Miage Glacier.

Surf à 5000 m : le Rêve...!

We will soar up to 5.000 m (16.400 ft) or climb with the help of the engine if the wind does not permit, using oxygen above 3.500 m (11.500 ft).

Depending on wind direction, we will slope soar on the south or the north side of Mont Blanc and, if the weather permits, perhaps try some wave soaring.

The over flight of the Mont Blanc is carried out in pure glider configuration to live this thrilling moment in silence and serenity, a little nearer to the Gods.

Glide on in the silence and comfort of the **STEMME S 10 VT**, the most beautiful twin seat motor glider in the world.

Surf on over the "Grandes Jorasses", the "Chamonix needles", "la Verte", "les Drus", the "vallée Blanche", the "Aiguille du midi", the "Mont Blanc du Tacul" and the "Mont Maudit" (Chamonix famous mountains).

Then we will glide along the "Dôme du Goûter" and the "Dôme de Miage" arriving a few minutes later at Megève, the "Arravis pass", and the "Tournette".

Soon we will be pottering around the Lake of Annecy admiring its and its magical surrounding settlements : Talloires, Saint Bernard de Menthon, Duingt, its castle, and of course the "Venice of the Alps" : Annecy.

After a last glide where you could get a glimpse of chamois and mountain goats, Lake Le Bourget will come into view, and we will run along the Revard ridge towards Chambéry, landing at Challes-les-Eaux after a last glimpse of the castle of La Bathie "keeping guard" on the airfield.

You will have been disconnected from the world and experienced two hours of eternity, with eagles, nature, and the awesome splendour of Europe's highest mountains in company with your "dream pilot" René DOUSSET.

Other routes are possible :

- * **le CERVIN4478 m (14689 ft)**
- * **le Mont ROSE ... 4545 m (14912 ft)**
- * **l'EIGER3970 m (13024 ft)**

Departure from :
Challes les eaux, Annecy, Albertville, Megève.
